**Summary:** On June 29, 2004, Glenn Stover, attorney for Navigator Telecommunications, LLC (Navigator), met with Cmmr. Brown in San Francisco. Also present were Robert Wullenjohn, advisor to Cmmr. Brown, Jeff Buckingham, Chief Executive Officer of Call America, two representatives from Working Assets, and Jim Gordon of the Communications Workers of America. Written material (copy attached to the notice) was used. Buckingham and Stover stated that the proposed UNE pricing decisions contained ruinous retroactive 'true-ups'; that increases in the UNE loop rates would make CLECs' continued participation in the California local service market questionable, that the proposed rates would facilitate, rather than prevent, monopoly pricing; and that both Proposed Decisions unacceptably abdicated reasoned decision-making by splitting the difference between the SBC and HAI models, when the record supported the outputs of the HAI model.

7/7/04	A02-07-021	Southern California Water Company, for an Order pursuant to Public Utilities Code Section 851 approving a Settlement Agreement that will convey water rights in the Culver City Customer Service Area.
--------	------------	--

**Summary:** On July 2, 2004, James Scarff, counsel for the Office of Ratepayer Advocates (ORA), met with Jonathan Lakritz, advisor to Cmmr. Wood, in San Francisco. Scarff discussed a settlement between the City of Santa Monica (City) and the Southern California Water Company (SCWC). Scarff stated that under the settlement the City's payment of the Assignment Payment does not cause the City to acquire title to SCWC's plant in Charnock Basin, nor does the City even acquire a lease or other usufructuary right to this plant. Scarff explained that the Assignment Payment was in the nature of damages rather than a sale, and thus does not come under Public Utilities Code Section 790 for reinvestment in new plant.

**Summary:** On July 6, 2004, Robin Smutny-Jones of the California Independent System Operator (ISO), met with Brian Prusnek, advisor to Cmmr. Kennedy, in San Francisco. Also present was Jim Detmers of the ISO. The ISO discussed ISO real time operational issues that arise as a result of utility procurement and dispatch practices. met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present was Jim Detmers of the ISO. The ISO discussed the pending Commission order regarding electricity reliability issues. The ISO stated that the order would be beneficial for California by helping to direct utility procurement and dispatch to better reflect the physical limitations of the transmission grid. The ISO also discussed the impact of this order on total overall costs and whether the order would be effective in changing utility procurement and scheduling behavior.

Lynch, and Julie Fitch, advisor to Cmmr. Peevey, in two separate meetings in San Francisco, and had a telephone conversation with Peter Hanson, advisor to Cmmr. Brown. At the meetings with Trina Horner and Julie Fitch also present were Claudia Greif, Manager, and Joe Lawlor, Energy Trading Consultant, Gas and Electric Supply Strategic Consulting, PG&E. Written material (attached to the notice) was used. Jacobson stated that the proposed decision should be modified to apply only to 2004. Jacobson also emphasized the importance of full cost recovery and getting clear guidance from the ISO regarding the nature of reliability problems. Greif explained that PG&E has a merchant role and its access to information regarding congestion is limited. Lawlor stated that there are no known reliability situations in PG&E's service territory that are not being addressed through RMR contracts.

Also present were Lester Wong, advisor to Pres. Peevey, and Catherine Boone, Vice President for Governmental & External Affairs of Covad. Hoffman and Boone indicated the loop rates by 30% could force some carriers out of the market entirely, and would certainly make it more difficult to bring lower prices and new services to customers, particularly to residential consumers. Hoffman and Boone stressed that the evidence in the record demonstrates that telecommunications network costs are decreasing not increasing, and UNE rates should reflect this fact.
